

AgFirst Lick Tubs

30-13

- Economical protein delivery with a blend of ingredients to stimulate optimal rumen fermentation on low quality diets
- Intake range of .5 to 1.0 lb/hd/day

All Veg 20

- True Protein tub without Urea or Animal protein products for low to medium quality forages
- Intake range of .5 to 1.0 lb/hd/day

Calve & Breed with Availa 4 and Celmanax

- Formulated with Availa 4 and Celmanax for extra fortification during the critical calving and rebreeding stages for Cow-calf producers
- Intake range of .5 to 1.0 lb/hd/day

Pasture Min 4 Phos

- Base All-Around summer grazing mineral delivering a robust standard mineral and vitamin pack to meet cow requirements
- Intake range of .40 to .60 lb/hd/day

Stress Handler

- Formulated with Availa 4 and Celmanax for extra fortification, highly palatable delivery of micro-nutrients critical during periods of stress to maintain gut health, bind pathogens and prepare for rapid immune response when needed
- Intake range of .20 to .33 lb/hd/day for calves and .30 to .50 lb/hd/day for mature cattle

Multi Species

- An all-purpose tub when multiple species are managed or grazing as a common group
- Intake range of .5 to 1.0 lb/hd/day for cattle and equine and 1 to 3 oz/hd/d for small ruminants

Mix 30 High Energy Liquid Feed

- ✓ Low starch/sugar content (Supplies non-starch forms of energy)
- ✓ Excellent palatability
- ✓ Desirable combination of protein sources
- ✓ High quality and consistent product
- ✓ Excellent protein to energy ratio
- ✓ Economical
- ✓ Balanced combination of rumen-microbe friendly energy sources.
- ✓ Versatile product that can be fed to: Cow/calf, Calf Creep, Starting & Finishing Rations, Grass Cattle, Sheep & Goats, Dairy, Grain Mixes, Deer & Elk

We also have AgFirst branded CTC, MGA and Optaflexx at extremely competitive prices!

AgFirst Feedlot Supplements

AgFirst Starter B500

- Starter supplement for calves entering the feedlot. Increased vitamin and trace mineral package with 30% of the zinc from Availa Zn and 50% of the copper coming from Availa Cu. Added yeast for rumen health. Medicated for the control of coccidiosis. 1# inclusion.

AgFirst CB R1000

- Co-product balancer with no added potassium. Complete trace mineral and vitamin package with 30% of the Zinc coming from Availa Zn. 0.50# inclusion.

AgFirst 27-20 R720

- High level of degradable protein (27%) which enhances microbial efficiency to improve daily gain & feed efficiency (Rumensin). Complete trace mineral and vitamin package with 25% of the Zinc coming from Availa Zn. 0.70# inclusion.

AgFirst 40-20 R500 or B500

- High level of degradable protein (40%) which enhances microbial efficiency to improve daily gain & feed efficiency (Rumensin). Complete trace mineral and vitamin package. 1# inclusion.

AgFirst 35-35 R800

- High level of degradable protein (35%) which enhances microbial efficiency to improve daily gain & feed efficiency (Rumensin). Complete trace mineral and vitamin package with 60% of the Zinc coming from Availa Zn. 0.625# inclusion.

AgFirst 34% AN B500

- All-natural protein (34%) (Bovatec) to improve daily gain & feed efficiency. Complete trace mineral and vitamin package. 1# inclusion.

AgFirst Cow Mineral

AgFirst Cow Gestation Mineral

- Formulated for the gestating cow with a maintenance level of vitamins. Balanced calcium and phosphorus for fetal development to balance with grass phosphorus content. 3-4 oz inclusion.

AgFirst Calving & Breeding Mineral

- Formulated to produce faster conception rates with a concentrated level of vitamins and minerals. Organic trace mineral to improve mineral absorption and added yeast for gastrointestinal health. 3-4oz inclusion.

AgFirst Ultra Breeder Mineral

- To be fed beginning 45 days prior to breeding through the end of the breeding season. Formulated with Availa 4. Increased vitamin level for a balanced approach for lactating and breeding cows. 3-4 oz inclusion.

AgFirst Co-Product Cow Mineral R1600

- High calcium mineral with no phosphorus added to utilize the natural phosphorus in the feedstuffs to meet the reproductive and lactating cow needs. 3-4 oz inclusion

AgFirst Cow Cake

- 20% protein cow cube fortified to supplement fair to good forage. 2# inclusion.
